

Welcome to CEA

The cities of Oceanside and Vista proudly welcome you to the Clean Energy Alliance (CEA). CEA—a locally controlled not-for-profit entity—was formed to help meet Climate Action Plan goals of our member cities. CEA became your default power provider on April 1, 2024, and we are proud to offer you clean energy at competitive rates.

CEA provides the community with benefits that were previously not available to electric customers, including:

- **Local Control:** The CEA Board of Directors is made up of local elected officials. The Board makes decisions regarding renewable energy sources and sets goals for the program.
- **Cleaner Energy:** CEA offers power supply from a minimum 50% renewable sources, increasing to 100% by 2035.
 - Directly support each cities Climate Action Plans goals of reducing Greenhouse Gas Emissions.
- **Choice:** CEA provides a choice where there wasn't one—customers can choose between CEA's three power supply options or opt-out and remain with San Diego Gas & Electric (SDG&E).
- **Economic Development:** CEA supports local jobs and businesses by buying local and developing programs and projects in the communities it serves.

Our partner, SDG&E will continue to deliver energy to your home, maintain power lines and process your electricity bill; however, CEA will now purchase energy on your behalf instead of SDG&E. Having local control over buying energy allows CEA to make better investments in clean power. As always, you will continue to receive a single monthly bill.

By default, customers are automatically enrolled in Clean Impact Plus, CEA's 75% carbon free power supply, compared to SDG&E's 44.8% renewable power supply (per 2022 Power Content Label). Customers have the option to opt up to a 100% renewable energy plan or opt down to CEA's 50% renewable energy base plan. Your energy plan options with CEA include:

Clean Impact: 50% Renewable Energy Content
Clean Impact Plus: 75% Carbon-free Energy Content
Green Impact: 100% Renewable Energy Content

Personal Impact: CEA's Net Energy Metering Program, available for customers with rooftop solar.

We look forward to being your energy provider bringing new power supply options, however, we understand that some customers may want to opt out and remain with SDG&E. For more information on how to opt up or opt out, please visit www.TheCleanEnergyAlliance.org or call (833) 232-3110.

Sincerely,

Your CEA Board of Directors

AS OF APRIL 2024, CLEAN ENERGY ALLIANCE HAS BECOME THE DEFAULT ELECTRIC PROVIDER IN THE CITIES OF OCEANSIDE AND VISTA.

Attention Oceanside and Vista Residents & Businesses

In April 2024, Clean Energy Alliance (CEA) replaced San Diego Gas & Electric (SDG&E) as your default provider for the power generation portion of your electric service. CEA is a local power supply program that works in partnership with SDG&E to bring you electricity from renewable sources. SDG&E will continue to deliver power to your home or business, maintain the grid and all equipment, open and close accounts, provide billing and collection of payments, and provide customer service and field service (including during power outages). There will be no change to automatic payments or level rate pay plans.

ENROLLMENT: Effective April 2024, CEA became the default electric power provider within the cities of Oceanside and Vista. You were automatically enrolled in CEA's default program as of that date.

If you would like to continue as an SDG&E customer for energy and do not want to be enrolled with CEA, you must opt out of the automatic enrollment. To opt out, without restrictions, you must call (833) 232-3110 or visit our website at www.TheCleanEnergyAlliance.org within 60 days of starting service with CEA. You may also call or visit our website for additional information. You only need to take action if you want to opt out and remain an SDG&E customer.

OPT OUT: You have the right to opt out of CEA. If you decide to opt out and return to SDG&E after the 60-day opt out period, SDG&E will charge a one-time account processing fee (\$0.56 as of May 2022). By opting out, you will also be subject to SDG&E's then current rates and terms and conditions of service. For details on SDG&E's rates and terms and conditions, please visit SDG&E.com. You will not be charged any fees if you opt out within the first 60 days after your automatic enrollment with CEA or if you cancel electric service altogether (for example, if you move). If you opt out, you will still be charged for all electricity you used before the transfer of electric service. Accounts will be transferred on the day the electric meter is read and cannot be transferred during the middle of a billing cycle. In order for your request to be processed on your next meter read date, your request must be received at least 5 business days prior to the date on which the meter is read. To opt out, please call CEA or visit TheCleanEnergyAlliance.org. Have your electric bill handy so that we can process the request.

BILLING: Each month, CEA customers receive a single monthly bill from SDG&E. This bill includes all recent electric charges, including CEA's power generation charges. For your convenience, SDG&E forwards the power generation portion of the payment to CEA. SDG&E will continue to charge you for the transmission and delivery services they provide.

FAILURE TO PAY: CEA may transfer your account back to SDG&E upon 14 calendar days' written notice to you if you fail to pay any portion of the CEA charges on your bill. If your service is transferred, you may be subject to additional requirements by SDG&E.

CARE PROGRAM: If you are currently enrolled in the California Alternative Rates for Energy (CARE) program, you will continue to receive all CARE benefits and discounts upon enrollment in CEA. If you are interested in joining the CARE program for low-income adults, please visit SDG&E.com

TERMS AND CONDITIONS OF SERVICE: CEA electric generation rates can be reviewed at TheCleanEnergyAlliance.org or by calling (833) 232-3110. Any changes to CEA rates will be adopted at duly noticed public meetings of the Clean Energy Alliance.

SDG&E also charges CEA customers authorized fees for delivering power to your home or business and for providing other services. These components of your electric bill are the same whether you buy electricity from CEA or SDG&E.

For more information, please visit our website at TheCleanEnergyAlliance.org or call (833) 232-3110.
